Lab 4 - VibeCoding

Prompt and Implementation Log

Student: Aarya Prasad G

SRN: PES1UG24AM331

Game: 31_galaga - Galaga Repair Lab

Scope: Fix the cubic Bézier path bug and implement the three README-listed hooks for enemy tinting, a wave-start banner, and shield charges.

Accuracy note: This document is a prepared log of the focused prompts and checks used for this implementation. It is not a verbatim export of the ChatGPT interface or a generated share link. Add the actual platform export/share link if your instructor requires it.
